

Guidance That Feels Human

WE DON'T SELL COVERAGE. WE UNCOVER IT.

Your employer has partnered with Benefits All In (BAI) to give you one-on-one coverage guidance at no cost to you. BAI is an independent education partner, here to help you understand what fits your household.

What to Expect

-  An expert in your corner, a dedicated advocate who takes the time to know your household
-  Confident decisions, made with guidance instead of guesswork
-  A clearer understanding of options beyond your workplace benefits
-  Lower costs, where a better-fit option exists
-  Peace of mind, whatever the year brings

One household at a time

Most households are best served right where they are, on your employer's plan. If a better-fit option is available to your household, BAI helps you see it clearly. Participation is always your choice.

BAI has helped thousands of families uncover coverage they didn't know was available to them. Whether you have questions about your current plan, are facing a health challenge, or are dealing with financial hardship, your dedicated Education Resource Specialist (ERS) is here to help.

"Before working with my BAI specialist, I was overwhelmed with worry that I'd made a mistake that would cost my family dearly in terms of insurance over the next year. Thanks to her, she completely removed that anxiety."
