

# Household Needs Survey

UNCOVER WHAT ELSE IS AVAILABLE TO YOU

## Your household, understood.

Your employer believes every employee deserves to feel informed and supported when it comes to their healthcare. That's why they've partnered with Benefits All In (BAI), a team of Education Resource Specialists (ERS) dedicated to helping you make confident, informed decisions about your benefits.

### A specialist who stays with you

Through this partnership, you'll work directly with a dedicated ERS who will review your current coverage, educate you on your options, and help you find ways to reduce out-of-pocket costs while making sure your whole family is covered.

## What is the Household Needs Survey?

In just a few minutes, this confidential survey helps BAI identify whether additional coverage options exist for you and your family beyond what your employer's plan offers. Your responses are encrypted and never shared with your employer, so you can answer freely. Your privacy is protected and your current enrollment is unaffected.
