

Life Changes

YOUR BENEFITS CAN TOO

Life events can change your health coverage in ways that are easy to overlook. That's why your employer has partnered with Benefits All In (BAI), so you always have expert support ready to help you make informed decisions for you and your family.

When a life event happens, you have a dedicated Education Resource Specialist (ERS) in your corner, with a direct line ready whenever you need it. From paperwork to phone calls to follow-ups, your dedicated specialist stays with you through the whole process, so you can keep your attention where it belongs.

Whether you're preparing for an upcoming change or navigating one right now, your ERS can review your current plan and help you find coverage better suited to your needs.

Qualifying Life Events

- Birth or adoption
- Marriage or divorce
- Child turning 26
- Medicare eligibility changes
- VA or TriCare eligibility changes
- Household income changes affecting Medicaid eligibility
- Employment or coverage status changes (for you, a spouse, or a dependent)

A qualifying life event opens a limited window to change your coverage, and that window can close quickly. Reach out to your Education Specialist as soon as you can and they'll confirm the timing for your plan.

Not sure whether your situation qualifies? A new diagnosis or disability can sometimes trigger a qualifying event too. Reach out to your ERS and they'll help you understand every option available to you.
